

# P 19

## FINISHING

The knitted, elastic cuff made with FIT-WRIST technology is pleasant to the touch and perfectly adapts to the shape of the wrist, ensuring full comfort of work.

## INSERT

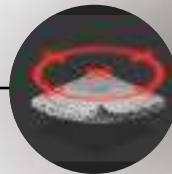

The SAFEEL insert fits the hand perfectly, ensuring high wearing comfort, and has a safe, BPA-free composition.

## COATING

### PU-REFORMANCE

The spongy, light, polyurethane structure of the coating ensures high grip and precision of grip.

## CHARAKTERISTICS

The gloves provide antistatic protection, made of soft white Bytlon fiber and carbon fiber. The gripping part of the glove is covered with polyurethane. Finished with a welt, well-fitting to the hand.

**SIZE:** 6-11

**ENVIRONMENT:** at risk of static electricity
